Team – please look over the two attached documents, especially if you attended the August meeting in Boise and/or are planning to attend the Oct. meeting at Alderbrook (Union, WA). These documents are on a tight review schedule, so I will make time to look at them myself and will copy you on my comments. Please let me know if you have comments on either one or both - the agenda and draft meeting summary so that I can send in consolidated comments to make it easier for them. FYI, the draft meeting summary will be posted on the Willamette Partnership website once it's finalized

Kelly & Mark, I'm sending this to you as well so that you can at least see what the agenda for the Oct. meeting looks like to know where the project is heading. You can look at the draft meeting summary if you want, but otherwise I will leave it up to you if you want to provide comments – let me know if you have any.

Hi all,

I hope everyone is enjoying the fall weather, all the better for staying inside and reviewing documents! I have a couple very short ones for you today (with correspondingly short review schedules), attached are:

1. **Draft meeting summary for workshop #3** - please review by *next Friday, October 4th* and provide comments so that we can post a version that accurately reflects our discussion.
2. **Draft agenda for workshop #4** - please review by *this Friday, September 29* and provide comments on the plan for our next gathering. We set this one up to revisit some issues that we know need more work (Baseline) and to walk through a mock trade that represents our best practices so far, which should help clarify what they all are and how they fit together. We're anticipating that this will also jog our collective memories about other issues that we need to revisit, so we've built in time to discuss them as they arise.

These will be posted on the the project wiki site shortly.

Best,
Carrie
